Frontend Engineer focused on **React** and **Express Js**, delivering high-performance, scalable, and maintainable UI applications through component-driven architecture, modern JavaScript practices, and close collaboration with product and design teams.

PROFILE SUMMARY:

Senior Fullstack Developer with 4+ years of experience delivering scalable, production-grade web applications using **React.js**, **TypeScript**, **Node.js**, and **Express**. Proven expertise in designing reusable component architectures, building high-performance REST APIs, and orchestrating secure integrations with external platforms including payments, authentication and analytics. Strong background in end-to-end system ownership from UI/UX collaboration to backend services, CI/CD pipelines, and cloud deployment. Adept at optimizing performance, enforcing coding standards, mentoring junior developers, and contributing to architectural decisions in fast-paced Agile environments.

EDUCATION

B.Sc. in Electronics and Communication Science

Mohamed Sathak College of Arts & Science, Sholinganallur, Chennai | GPA: 7.7/10 | 2018-21

TECHNICAL SKILLS:

Vue | Nuxt | JavaScript | HTML | CSS | Node.js | **React** | **Next** | Astro | Linux | Git | **TypeScript** | VS Code | Tailwind CSS | TRPC | Vercel | Netlify | **Express** | Prisma | MUI | ShadCN UI

WORK EXPERIENCE:

Full stack Developer Francium Tech, Padur, Chennai Nov'21 – Oct'25

- Played a key role in the development and enhancement of over 40 large-scale applications, optimizing user experience through the effective use of Vue, Nuxt, React, and [Next.js](#), Nodejs.
- Improved code quality and maintainability by 25% through rigorous code reviews and the adoption of best practices in software development.
- Facilitated team growth by conducting technical interviews and assessing more than 20 candidates, successfully recruiting high-caliber talent.
- Elevated team performance by addressing technical challenges and providing mentorship to over 20 developers, resulting in enhanced coding skills and increased productivity.

Experience Engineer Publicis Sapient, Kandhanchavadi, Chennai Oct'25 – Present

- Worked on migrating a legacy application to a modern Next.js application to improve performance, accessibility and SEO.
- Worked on microfrontend architecture that scales to millions of users.
- Developed and maintained automated test suites to proactively detect regressions and improve code reliability.
- Enabled rapid onboarding of new clients by delivering a reusable white-label architecture that minimized code duplication and deployment effort.

CORE COMPETENCIES:

- Front-end Development (**React.js** & **Express.js**)
- Search Engine Optimization

- Microservices Architecture
- Cross-Browser Compatibility
- Agile Development
- Unit/Integration testing
- Responsive Design & UI/UX Design

PROJECTS MANAGED:

Project 1: Money Smart, Singapore | Role: Front-end Engineer | Tenure: 2022 – 2025

- Enhanced system reliability by addressing and resolving over 100 bugs, reducing application downtime.
- Improved SEO performance through advanced techniques such as magnification, structured data markup, and dynamic server-side rendering, resulting in a 5% increase in organic traffic and a 20% decrease in page load times.
- Optimized the Auth module by reducing unused scripts by more than 80%, improving efficiency and performance.
- Re-engineered the main product page to boost performance, leading to a more responsive and user-friendly experience.
- Collaborated closely with engineering teams to elevate code quality, promote knowledge sharing, and enhance problem-solving capabilities.

Project 2: Personal Portfolio | Role: Lead Developer

- Developed with Next.js to ensure high performance and SEO effectiveness, TailwindCSS for a responsive design, TypeScript for type safety, Framer Motion for engaging animations, and Resend for seamless email communication.
- Features a comprehensive showcase of projects, including detailed descriptions, images, and links, all presented in a responsive design optimized for various devices.
- Integrates a contact form powered by Resend, enabling direct email communication from the portfolio.

Project 3: Personal Blog | Role: Lead Developer

- Developed using Astro to achieve optimal performance and efficiency.
- Incorporated Markdown with JSX support and syntax highlighting for enhanced readability and user experience.
- Integrated RSS feeds and sitemaps to bolster SEO and improve content discoverability.
